

Career Exploration in Bioscience (BTEC 15)
City College of San Francisco Biotechnology Program

USING THE BIOTECH-CAREERS ACTIVITY

Another great source of information to help you explore areas of interest is the Biotech Careers website: www.biotech-careers.org/ . While [Careers in Biotechnology](#) has good descriptions, many students find this resource more engaging and visually stimulating. It has video interviews of people doing a wide variety of jobs in bioscience.

Directions: *On the website listed above click on "Job Areas"(Areas of Interest). Read through some of the areas and choose 4 you might like and answer the following questions for EACH Area.*

I. Area of Interest (Job Area) #1:

a) Brief description of the area (2-3 sentences)

b) Job title within this area (if there are many listed, choose the most interesting and answer):

1) Duties

2) Salary

3) Education needed

II. Area of Interest (Job Area) #2:

a) Brief description of the area (2-3 sentences)

b) Job title within this area (if there are many listed, choose the most interesting and answer):

1) Duties

2) Salary

3) Education needed
